

Chapels Facilities Catering and Audio Visual

Our award winning Jubilee Chapel Complex houses 3 non-denominational chapels with adjoining lounge facilities.

Burial, Cremation and Memorial services can all be held within the Complex. Centennial Park offers a range of audio visual technologies to allow very personal and individual services. Our lounge facilities enable family and friends to gather after the service for light refreshments.

This brochure is designed to provide information on the catering options available in our lounges and the guidelines for suitable formats for our audio visual facilities.

Centennial Park does not have a licence for alcohol to be consumed on the premises. As advised by the Office of the Liquor and Gambling Commission and in accordance with the Licencing Act, a limited liquor licence must be obtained. Conditions apply in the event of a licence being granted. Centennial Park is not responsible for obtaining the licence on behalf of families or funeral directors.

Guidelines and Criteria for Audio Visual Facilities

Centennial Park provides a range of audio visual technologies within our Chapel Complex. As the trend towards celebrating life increases many families choose to incorporate music and photographic presentations as part of the funeral or memorial service.

We have set some guidelines for suitable formats to assist you when preparing and arranging the presentation. To ensure that your audio visual presentation is able to be played on the day of the service, Centennial Park requests that you contact our Chapel Office on (08) 8275 2230 to make an appointment at least 24 hours prior to the service to test the presentation in our system.

The following guidelines will assist you to prepare the presentation in the required format to meet our systems requirements. To ensure clear viewing of the photographic image, one photo per slide is recommended.

Visual Presentations

DVD

A DVD must be on one of the following media;
• DVD Video • DVD-R • DVD+R

The finished DVD needs to be finalized and be able to be played in a standard DVD player without requiring any additional software.

PowerPoint

Our system is capable of reading PowerPoint versions (1997-2010). A PowerPoint must be on one of the following media;

- CD-R • USB 2.0 Flash Drive
- DVD-R • DVD+R

Should you wish to have audio played in conjunction with the visual presentation we prefer that the audio be incorporated into the DVD/PowerPoint to ensure better synchronisation.

If you wish to have a photographic presentation but are unable to compile it yourself we are happy to recommend a company who can assist you. Please contact our Chapel Office for details.

Audio Facilities

Audio may be played via CD or audio tape. CD's can be played in the following media;
• CD Audio • CD-R

Professional Recordings

Centennial Park has joined with Digiflix Productions to offer a Service Package which allows for the funeral service to be professionally recorded. By allowing Digiflix to be present, presentations and words spoken on the day will be recorded and presented on DVD format.

Please contact your funeral director or our Chapel office on (08) 8275 2230 for further details.
